

The Aquatic Center of Rochester Presents

St. Lawrence Dive Weekends - 2013

July 19, 20, & 21 (All Levels)

September 20, 21, & 22 (All Levels)

Enjoy some of the best diving in the country!

The St. Lawrence Seaway is home to some of the finest shipwrecks in the world, all preserved in peak condition by the cool waters. This is also a great area for artifact diving, as a lot of historic bottles and china have been tossed into the river. Plus, the drift diving gives you an added thrill ride! The visibility varies from 30 to 100 feet, and the water temperature ranges from a warm 65 to 70 degrees. We will be diving from the Canadian side. We are staying in a delightful Bed & Breakfast Inn right on the river, in Prescott, Ontario.

This week-end of diving adventure is yours for only ----
